

COLLECTIBLE MIRROR-SCULPTURE

CI-I

THE GEOMETRY OF OBSESSION

2,485 individually machined aluminium cylinders. One mirror.

10 + 2 AP · WORLDWIDE

2,485

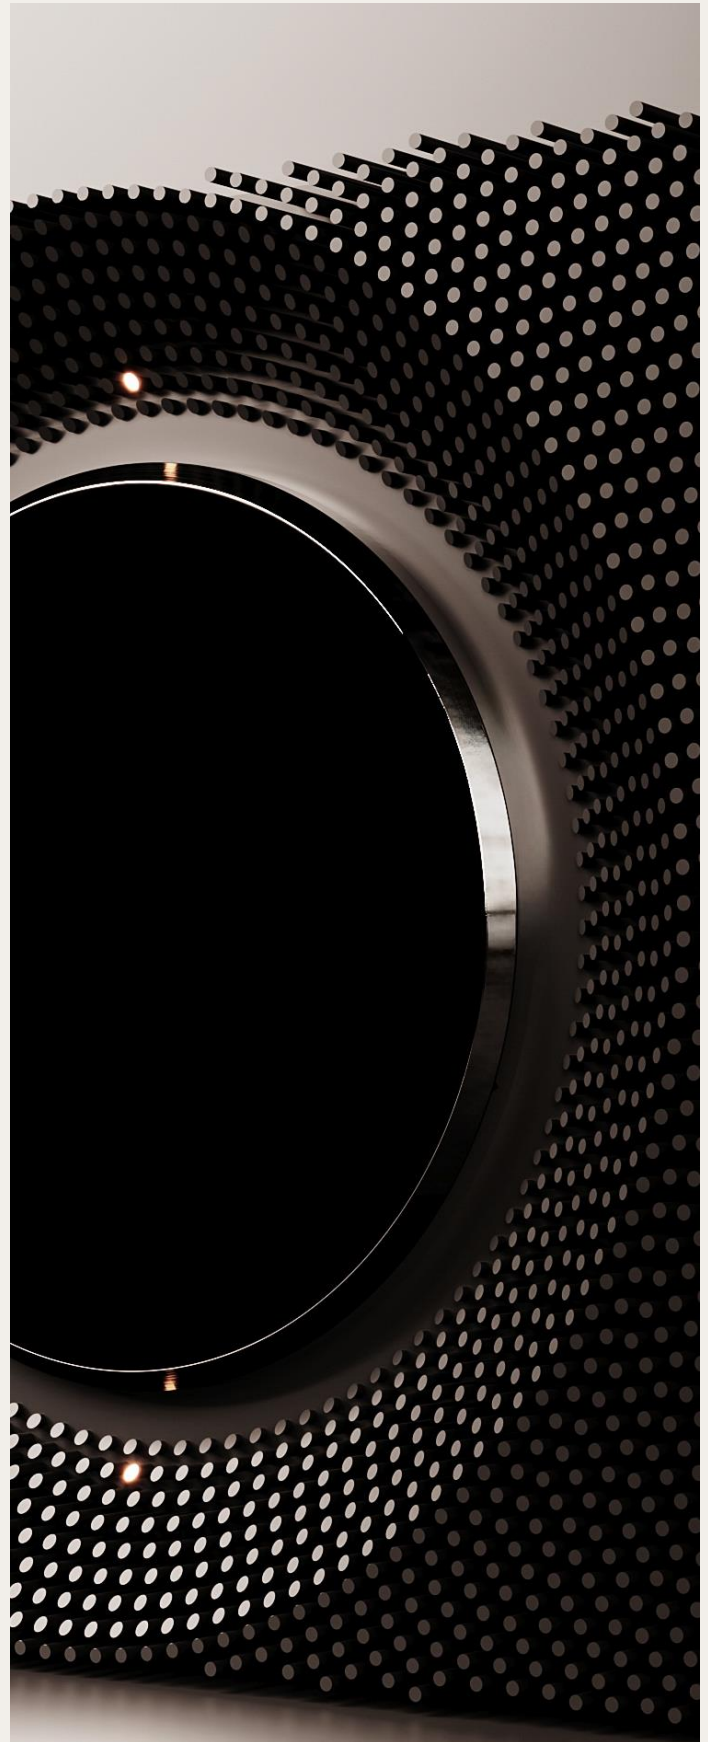

PRECISION-MILLED ELEMENTS

C1-1 is a collectible mirror-sculpture composed of 2,485 individually machined aluminium cylinders, arranged with absolute precision around a circular mirror. Its surface creates a field of depth, shadow and quiet movement - drawing the viewer in and transforming reflection into presence.

More than a functional object, C1-1 is conceived as a sculptural focal point for exceptional interiors: precise, architectural and collectible. Crafted from enduring materials and developed with obsessive attention to detail, it is designed to hold its presence, rarity and value through time.

“Reflection becomes presence.”

YOVO BOZHINOVSKI

FRONT VIEW

A circular mirror held within a precisely modulated aluminium field.

Light becomes material.

Every cylinder catches and releases light at a different angle. The result is not a static facade, but an architectural surface that changes with the room, the hour and the position of the viewer.

TECHNICAL SPECIFICATION

C1-1 / Mirror Sculpture

TYPE

Collectible wall-mounted mirror sculpture

MATERIALS

Aluminium and mirror

CYLINDERS

2,485 individually machined elements

FINISH

Matte black anodised aluminium

DIMENSIONS

W 360 × H 273 × D 40 cm

EDITION

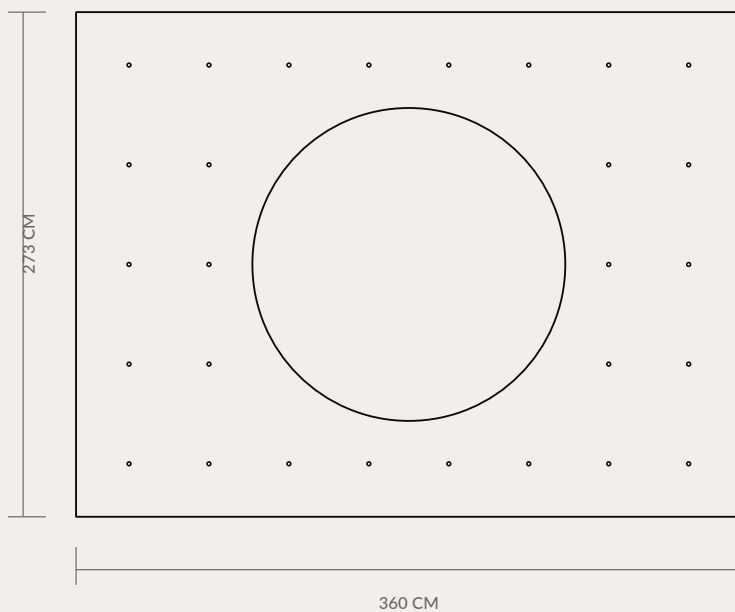

10 pieces + 2 artist proofs

PRODUCTION

Made to order

DOCUMENTATION

Edition Passport and Certificate of Authenticity

FRONT ELEVATION / NOT TO SCALE

EDITION PROTOCOL

Each work is produced in an edition of ten, accompanied by two artist proofs. Every piece includes an Edition Passport and a Certificate of Authenticity naming the first owner of record.

INSTALLATION

Engineered wall-mounted system. Final structural coordination and installation requirements are confirmed for each project and site.

Made to order.
