

CI-2

THE ARCHITECTURE OF MOTION

A collectible desk-sculpture in aluminium and glass, shaped by precision, movement and architectural discipline.

10 + 2 AP · WORLDWIDE

C1-2

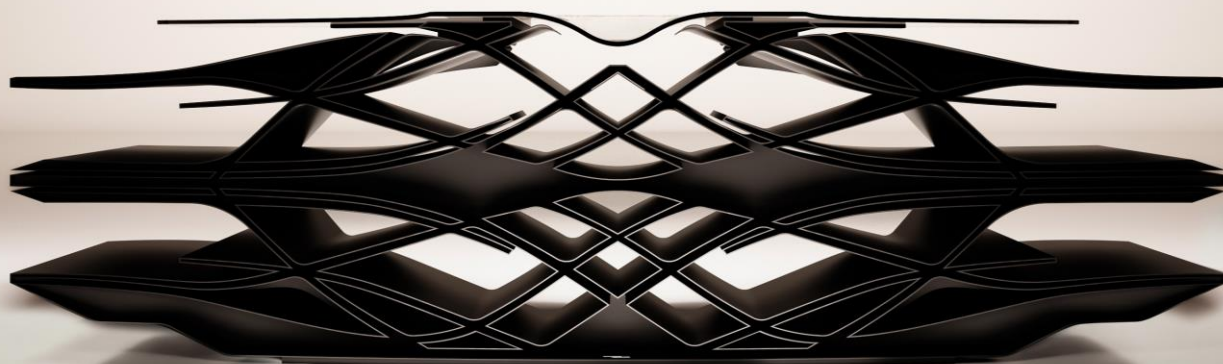

C1-2 transforms the traditional desk into a sculptural study of controlled movement. Beneath its clear glass surface, a parametrically developed aluminium structure unfolds in a continuous rhythm of line, depth and shadow.

Engineered with digital precision and refined by hand, the composition balances aerodynamic energy with architectural clarity. The form appears to move even while standing still - powerful, fluid and precisely resolved.

“Motion, engineered into presence.”

YOVO BOZHINOVSKI

FRONT VIEW

A clear glass plane reveals the aluminium geometry beneath - precise, fluid and architectural.

THE STRUCTURE

The Architecture of Motion

Layered aluminium geometry creates depth, tension and continuous movement. Through the glass, the structure remains visible and alive - shifting with light, shadow and viewpoint.

TECHNICAL SPECIFICATION

C1-2

FRONT ELEVATION / NOT TO SCALE

TYPE

Collectible desk-sculpture

MATERIAL

Precision-formed aluminium

TOP

Clear tempered glass

STRUCTURE

Parametric aluminium lattice

DIMENSIONS

W 276 × D 117 × H 76 cm

EDITION

10 + 2 artist proofs

PRODUCTION

Made to order

DOCUMENTATION

Edition Passport and Certificate of Authenticity

EDITION PROTOCOL

Produced in a strict edition of ten, accompanied by two artist proofs. Each piece includes an Edition Passport and a Certificate of Authenticity naming the first owner of record.

INSTALLATION

Made to order for private residences, galleries and exceptional interiors. Final handling, delivery and installation requirements are confirmed for each site before production.

Made to order.
